📌 <https://lnkd.in/eZ3MQivT>

As an aspiring web developer with knowledge in JavaScript (ES6), HTML5, CSS3, and in the MERN stack (MongoDB, ExpressJS, ReactJS, NodeJS), I bring a unique twist, thanks to my background in HR.

Beyond technical prowess, I bring strong soft skills in communication, adaptability, and rapid learning to the table. I'm actively seeking opportunities that allow me to expand my technical knowledge and make meaningful contributions to innovative projects.

With over 6 years of international living experience in Brazil, the USA, and The Netherlands, I also possess a deep appreciation for diverse cultures and a passion for meeting new people.

🧠 SKILLS

JavaScript (ES6) • HTML5 • CSS3
MongoDB • ExpressJS • ReactJS
NodeJS • Git • GitHub • Adaptability
Communication • Flexibility
Empathy • Relationship building
Good listening • Reliability
Negotiating skills

🎓 EDUCATION

Full-Stack Web Developer Program, Ironhack

2023 July – 2023 September | Amsterdam, Netherlands
10-week Full time Web development bootcamp

Built projects using: HTML, CSS, JavaScript (ES6), ReactJS, ExpressJS, NodeJS and MongoDB.

Associate's degree, Human Resources, University Nove de Julho - UNINOVE

2009 February – 2010 December | Sao Paulo, Brazil

📁 PROJECTS

Race Game 📄

Browser-based game built using HTML, CSS, and JavaScript.

AmsterDay 📄

Express-based website with Mongoose for models and database, featuring user and activity models. It includes model validation, secure user authentication, and authorization for added functionality. The primary purpose is to enable users to discover and create activities in Amsterdam.

Global Vibes 📄

Social media platform where users can share pictures related to specific hobbies. Users can choose from a predefined list of hobbies or add their own to the database, create posts, and interact with other users' posts. The project is divided into a frontend built with React and a backend built with ExpressJS, MongoDB, and Mongoose.
